

DECLARATION OF JANET E. REED, PH.D., ESQ.

1. I am an attorney at the firm Woodcock Washburn LLP.
2. I am the attorney responsible for the prosecution of United States Serial No. 09/816,785, filed March 22, 2001 also know as Woodcock Docket No. UNMC-0032.
3. I have completed a thorough search the file and my office and have concluded that the Official Action indicated as mailed on June 21, 2002 was not received by Woodcock Washburn LLP.
4. Enclosed is a redacted copy of the mail log record which discloses receipt of all correspondence received from the PTO on or about the mail date of the non-received Office Action and a redacted copy of the docket report on which the Office Action would have been entered had it been received. I have reviewed both these documents and confirm that the Official Action was not entered on either report due to the fact that it was never received by our office.
5. I confirm that the copies of the mail log record and docketing report have been redacted to exclude the alpha code assigned to a given client. Each of the firm's docket numbers is an alpha numeric code. The alpha code represents the given client while the numeric code identifies the particular matter for that client (e.g., UNMC-0032 identifies University of Nebraska Medical Center as the client and matter number 0032 corresponds to United States Application No. 09/816,785). Disclosure of a given alpha code could potentially identify our client to the public upon issuance of the application in question. In addition, such disclosure could be construed reflect confidential information of those respective clients. Accordingly, the alpha code portion of the docket numbers on the enclosed docket report and mail log have been redacted out.
6. I further confirm that any numeric code "0032" appearing on the docket report or mail log corresponds to an alpha code other than "UNMC".

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

August 6, 2003

REMINDER THAT NATIONAL PHASE DEADLINE IS 09/22/2002.

DECLARATION OF JACQUELINE M. NEUMAN

1. I am the Docket Supervisor at Woodcock Washburn (the firm) and have worked in the firm's Docket Department for 24 years.

2. Mail is opened, sorted and date-stamped by the Support Services Personnel at the firm who are trained to identify, collect and forward all office actions to the Docket Department.

3. Once the mail has been opened, stamped and sorted by Support Services, the Docket Department is contacted and the sorted mail is reviewed again by the Docket Department to be certain all office actions and PTO notices have been collected for docketing.

4. The Docket Department then verifies the proper identification of each office action via the firm's computer docket system (PC Master). After proper identification, each office action and notice is entered onto the firm's Mail Log, which serves as a written record for documents received from the U.S. Patent and Trademark Office (PTO) at the firm on a daily basis. The Docket Department personnel initial each action on the upper right hand corner. Copies of the firm's Mail Log for the period of June 21, 2002 through July 22, 2002 are attached as Exhibit A. The Mail Log has been redacted to avoid showing certain client-identifying information. However, except for this redaction, Exhibit A represents the actual Mail Log for the period stated.

5. After the mail is processed by the Docket Department, it is returned to Support Services for copying. When the copying is completed, the original actions and the copies are returned to the Docketing Department.

6. The Docket Department checks the copies and then distributes the originals to the appropriate secretaries and prosecution paralegals and retains the copies for processing of due dates, and the like.

7. Upon receipt of the original actions by the secretaries and/or paralegals, they, pursuant to instructions, look for the date stamp and the initials in the upper right hand corner of the action. These two notations together indicate that the action has been properly processed thus far and that a copy has been made for the Docket Department to assure that the action was entered into the firm's docket system and mail log. If either the date stamp or initials are missing, the secretaries and/or paralegals, pursuant to instructions, assume the action has not been properly processed and bring it to the attention of the Docket Department immediately.

8. Once the item is entered onto the docket software (PC Master), the item will appear on a Rolling Four-Week Docket Report at the appropriate time frame for four weeks prior to the deadline and continuing until the deadline. The weekly docket reports are distributed to attorneys, secretaries and paralegals for monitoring purposes. Additionally, the Docket Department runs a special 2-day docket report check and E-mails attorneys and their secretaries of outstanding, non-extendible deadlines. Further the Docket Department receives daily an E-mail of the "Out List" for the firm which identifies persons who are not present at the firm. The

Out List is prepared by the Receptionist so that the Docket Department can be made aware if an attorney or secretary was out. This would enable the Docket Department, to alert an alternate party, if necessary.

9. Once an Office Action or notice is responded to, the secretary or paralegal sends the Docket Department a Docket Process Form, a copy of which is attached as Exhibit B. The Docket Process Forms identify the case by country, serial number, filing date, due date, and client, and also identifies the communication sent to the PTO and the date it was sent. Each of these areas must match the computer record before a due date is removed. In this way, the Docket Department can safely remove a due date from the action field and place it in the action history of the records.

10. The firm never received the original Rejection dated June 21, 2002 as is apparent from the attached Mail Log (Exhibit A). It is noted that during this time period, many communications from the PTO were received. However, the communications received do not include a Rejection for Serial No. 816,785 (Docket No. UNMC-0032). If the Rejection had been received, it would have been docketed in accordance with the foregoing procedures.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may

jeopardize the validity of the application or any registration issued thereon.

Date: August 4, 2003

Jacqueline M. Neuman
